ENJOY ALL THE THRILLS OF THE FAIRGROUND!

Step right up and enjoy all the magic of the fantastic LEGO® Fairground! There's something for everyone; from a charming Carousel and a fun Ferris Wheel to the scariest of Haunted Houses and a hair-raising Roller Coaster. And for all you thrill-seekers out there, we're delighted to announce the arrival of our latest sensational attraction: the breath-taking, gravity-challenging Loop Coaster! 3,756 LEGO pieces of pure fair excitement!

2014

10244 Fairground Mixer

The Fairground Collection rolled into town on trucks and unfolded into a wild mixer ride. Like all future rides, models come to life with a simple turn of a crank or could be upgraded with power functions.

10244 L'attraction foraine

La collection Fête foraine arrive en ville en camions et présente une attraction foraine extraordinaire. Comme tous les futurs manèges, les modèles peuvent être actionnés par un simple tour de manivelle, ou être équipés de fonctions électriques.

Juego Mecánico (10244)

La colección Fairground llegó a la ciudad en camión y desplegó este emocionantísimo primer juego mecánico. Los modelos cobraban vida girando un manubrio y se podían motorizar con componentes Power Functions.

2015

10247 Ferris Wheel

The Ferris Wheel towered over the growing fairground at over 22.5 in. (58 cm) high, with 12 colorful gondolas. With a simple pull of a lever, loading platforms could be raised and lowered to ensure the safety of guests.

10247 La grande roue

La grande roue surplombe la fête foraine du haut de ses 58 cm, et présente 12 nacelles colorées. D'une simple pression sur un levier, les plateformes de chargement peuvent être levées et abaissées pour assurer la sécurité des passagers.

Rueda de la Fortuna (10247)

La Rueda de la Fortuna se elevó sobre la próspera feria a más de 58 cm de altura con 12 góndolas de colores. Las plataformas de carga se podían levantar y bajar con solo tirar de una palanca para garantizar la seguridad de los pasajeros.

2017

10257 Carousel

This enchanted carousel brought a whole new level of detailing to the fairground. Complete with reflective surfaces, a textile canopy and a menagerie of fantastic animals, this classic icon quickly became a fan favorite.

10257 Le manège

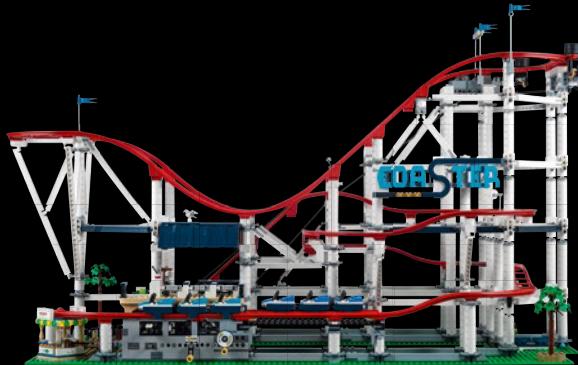

Ce manège féerique apporte à la fête foraine un niveau de détails supérieur. Doté de surfaces réfléchissantes, d'un toit en tissu et d'une ménagerie d'animaux fantastiques, ce classique est rapidement devenu un favori des amateurs.

Carrusel (10257)

El entrañable Carrusel le aportó un nivel de detalle completamente nuevo a la feria. Equipado con superficies reflectantes, carpa de tela y una amplia variedad de animales fantásticos, este clásico de los juegos mecánicos no tardó en convertirse en uno de los favoritos de los fans.

VIVEZ DES MOMENTS PALPITANTS À LA FÊTE FORAINE !

Venez découvrir toutes les merveilles de la fantastique fête foraine LEGO® ! Il y en a pour tous les goûts, du charmant manège à l'amusante grande roue, en passant par la plus effrayante des maisons hantées et des montagnes russes à couper le souffle. Et pour tous les amateurs de sensations fortes, nous avons le plaisir d'annoncer l'arrivée de notre dernière attraction sensationnelle : l'époustouflante montagne russe, qui défie la gravité ! En tout, 3 756 pièces LEGO de pur plaisir !

2020

¡DISFRUTA DE TODAS LAS EMOCIONES QUE TE OFRECE LA FERIA!

¡Acércate y descubre la magia que desprende la fantástica feria LEGO®! Hay opciones para todos los gustos: desde un entrañable Carrusel y una divertida Rueda de la Fortuna hasta la más terrorífica Casa Encantada de la Feria y una vertiginosa Montaña Rusa. Pero si lo que buscas son emociones fuertes, nos complace anunciar la llegada de nuestro más reciente y sensacional juego mecánico: la impresionante Montaña Rusa con Búcles, que desafía descaradamente a la gravedad. ¡3756 piezas LEGO de pura emoción ferial!

10261 Roller Coaster

Launching a whole new track system, the fully functional roller coaster had two trains, a loading station and an impressive number of dips and turns. It was the only LEGO® model to include the complete track system.

10261 Les montagnes russes

Présentant un tout nouveau système de rails, les montagnes russes entièrement fonctionnelles comportent deux trains, une station de chargement et un nombre impressionnant de plongeons et de virages. C'était le seul modèle LEGO® à inclure le système de rails complet.

Montaña Rusa (10261)

Equipada con un sistema de rieles totalmente nuevo, la Montaña Rusa funcionaba como las de verdad y contaba con dos trenes de vagones, una estación de carga y un impresionante número de caídas y giros. Era el único modelo LEGO® que incluía el sistema de rieles completo.

10273 Haunted House

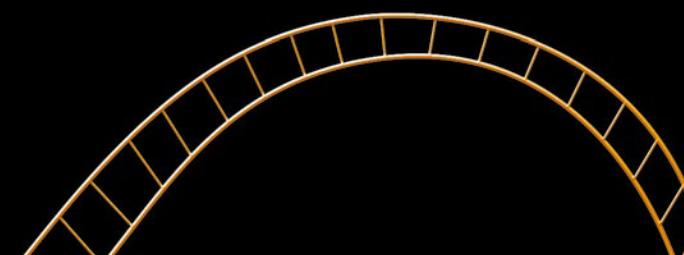

An elevator like no other, this spooky attraction lifted riders to the top of the manor tower then released them down the shaft with only screams of joy escaping this haunted place.

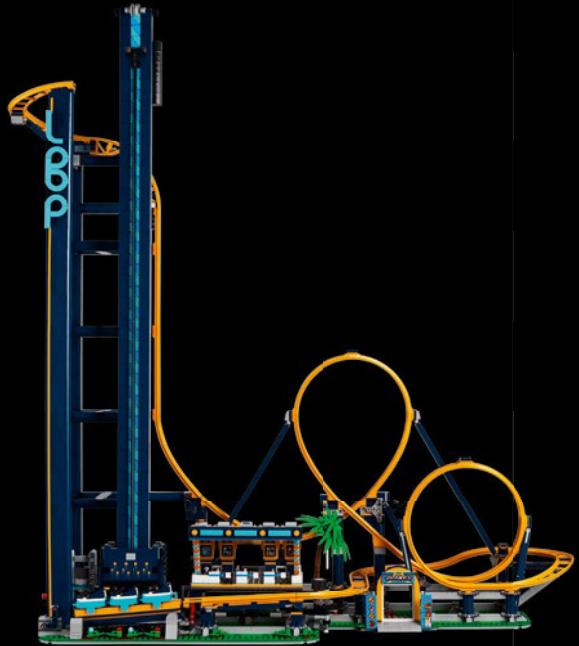

10273 La maison hantée

Comprenant un ascenseur comme nul autre, cette attraction effrayante hisse les visiteurs jusqu'au sommet de la tour du manoir avant de les relâcher, ne laissant que des cris de joie s'échapper de ce lieu hanté.

Casa Encantada de la Feria (10273)

Con un elevador sin igual, esta terrorífica atracción subía a sus pasajeros hasta lo más alto de la torre de la mansión y luego los dejaba caer por un eje: ¡un lugar embrujado del que solo escapaban gritos de diversión!

2022

10303 Loop Coaster

This gravity-defying thrill ride turns the fairground upside-down with two looping inversions, an innovative lift tower and one massive vertical drop! Three new track pieces extend the track system to go places never achieved before.

10303 Montagne russe

Ce manège à sensations fortes met la fête foraine sens dessus dessous avec deux boucles inversées, une tourelle élévatrice innovante et une chute vertigineuse ! Trois nouvelles pièces de rails permettent de prolonger le système de rails pour atteindre de nouveaux sommets.

Montaña Rusa con Búcles (10303)

Este emocionante juego mecánico parece no regirse por las leyes de la gravedad y pone la feria de cabeza con dos bucles completos, una innovadora torre elevadora y una impresionante caída vertical! Tres nuevos elementos amplían el sistema de rieles y permiten llegar a lugares nunca antes siquiera imaginados.

FROM THE DESIGN TEAM

"Working on the Loop Coaster was quite a roller-coaster ride (pun intended!). It's the first time we set out to create a functioning loop feature in LEGO® elements, so a lot of my time was spent on establishing a track layout, defining the new elements that would be needed, plus figuring out all the correct measurements and mechanisms. I also had to ensure that the model's structure was both stable and aesthetically correct while also offering builders a fun yet challenging building experience. I loved adding in those small details such as the "Are you tall enough to go on this ride?" sign or the lost red balloon that's attached to the ride. It's what brings the model to life."

**Senior LEGO® Designer,
Pierre Normandin**

UN MOT DE L'ÉQUIPE DE CONCEPTION

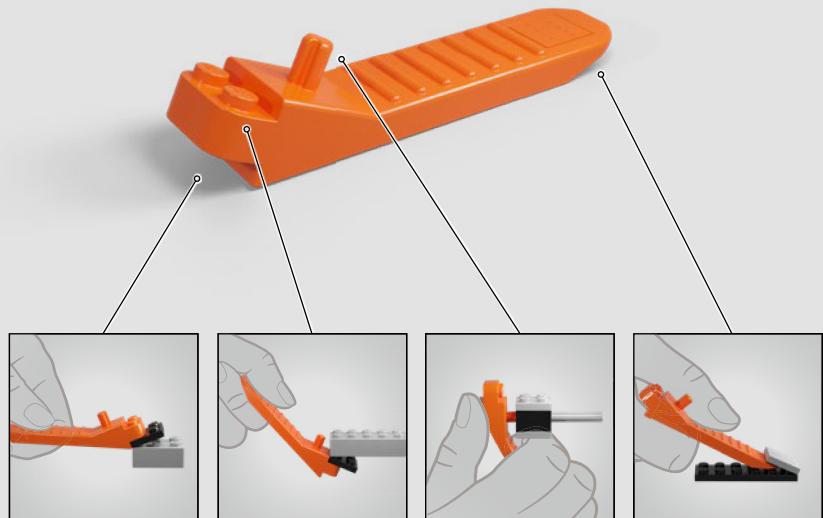

« Travailler sur ce modèle a été comme un tour de montagnes russes, littéralement! C'est la première fois que nous entreprenons de créer une boucle fonctionnelle avec des éléments LEGO®, et j'ai donc passé beaucoup de temps à établir le tracé des rails, à déterminer les nouveaux éléments nécessaires et à trouver les mesures et les mécanismes appropriés. Je devais également veiller à ce que la structure du modèle soit à la fois stable et esthétiquement réussie, tout en offrant aux constructeurs une expérience de construction amusante et stimulante. J'ai adoré ajouter de petits détails, comme le panneau indiquant la taille requise pour monter dans le manège ou le ballon rouge perdu qui est accroché au manège. C'est ce qui donne vie au modèle. »

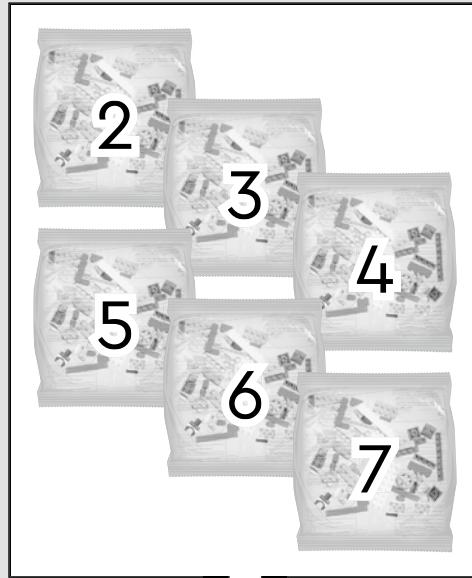

**Concepteur principal LEGO®,
Pierre Normandin**

IMPRESIONES DEL EQUIPO DE DISEÑO

Trabajar en la Montaña Rusa con Bucles se pareció mucho a montar en un juego mecánico. Nos propusimos crear por primera vez una función de bucle que funcionara con elementos LEGO®, así que pasé mucho de mi tiempo diseñando un circuito, definiendo los nuevos componentes que serían necesarios y determinando las medidas y los mecanismos correctos. También tuve que asegurarme de que la estructura del modelo fuera estable y estéticamente correcta, ofreciendo al mismo tiempo a los constructores una experiencia desafiante. Me encantó agregar pequeños detalles como el letrero que avisa de que se necesita una cierta estatura para subir a la atracción o el globo rojo perdido que se enganchó. Es lo que le da vida al modelo.

**Pierre Normandin,
diseñador senior de LEGO®**

Rebuild
the
world™

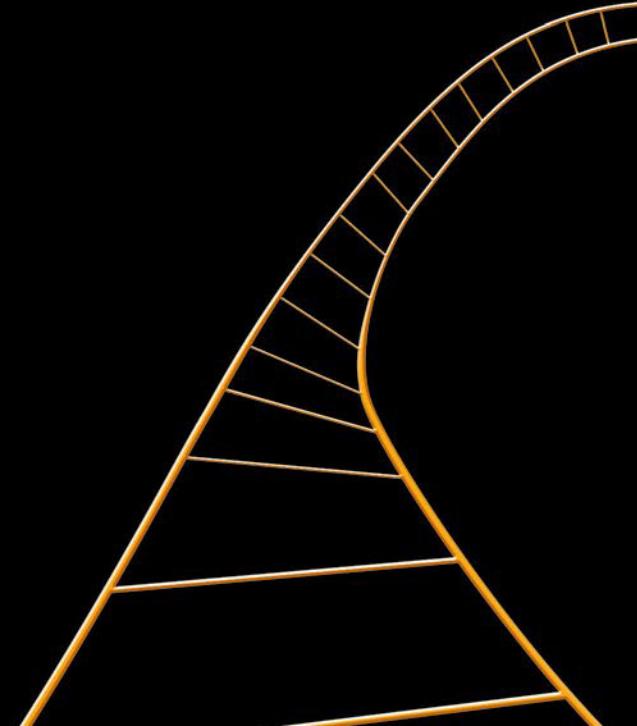

Ready to be Powered Up
Compatible avec Powered Up
Compatible con Powered Up

Add Powered Up components (available separately) to magically motorize all the mechanical functions. It also gives you the option of controlling your Loop Coaster via the cool Powered Up App.

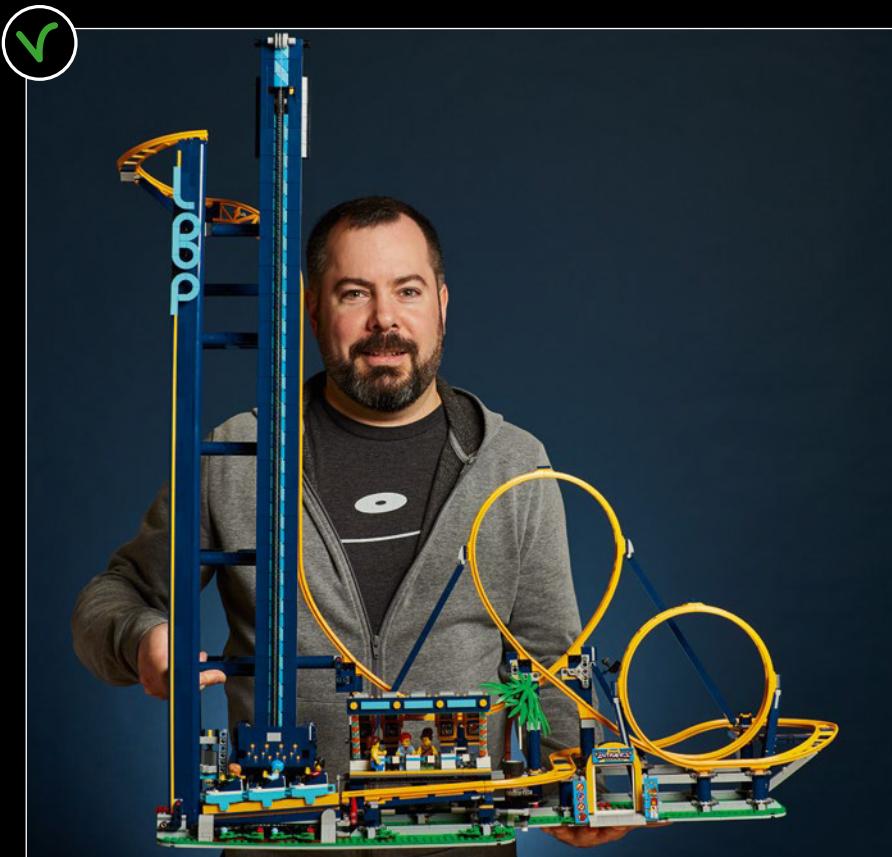

Ajoutez des composants Powered Up (vendus séparément) pour motoriser comme par magie toutes les fonctions mécaniques. Vous pouvez également contrôler votre montagne russe grâce à la formidable application Powered Up.

Agrega componentes Powered Up (disponibles por separado) para motorizar mágicamente todas las funciones mecánicas. Si lo haces, también podrás controlar tu Montaña Rusa con Búrcles usando la divertida app Powered Up.

HOW TO CARRY THE MODEL

It would be a shame if your newly built Loop Coaster came apart while you were moving it. If you lift it as shown in the image below, you should be good to go!

COMMENT DÉPLACER LE MODÈLE

Il serait dommage que votre montagne russe nouvellement construite tombe en morceaux pendant que vous le déplacez. Si vous la soulevez comme indiqué sur l'image ci-dessous, tout devrait bien se passer !

CÓMO TRANSPORTAR EL MODELO

Sería una lástima que tu recién construida Montaña Rusa con Bucles se desarmara mientras la trasladas. Si la levantas como puedes ver en la siguiente imagen, ¡todo irá bien!
